

# Grupo Vila Galé (Portugal)

*“You can check and access in an integrated and efficient way to the financial information of the Group, a decisive factor for a more efficient management”*

The registration of operations from Brazil and Portugal, converging in a single global basis, it is certainly an asset. It is possible to check and access in an integrated and efficient way to the financial information of the Group, a decisive factor for a more efficient management.

Carlos Rodrigues, CFO

## Industry

Hotel Industry

HR / FI

## Employees

1800 employees

## Why SAP?

Vila Galé is an hotel chain that operates in the Portuguese (20 hotels) and Brazilian markets (7 hotels), and has 1800 employees. Reliability, integration and centralized data processing (national and international) and centralized support were the reasons why we chose SAP, apart of the level of internationalization of the Vila Galé and the specific situation in Portugal and Brazil.

The HR solution enables centralization of processing and global vision on the world of Vila Galé at any time. It allows to welcome the multiple work collective contracts existing in hotels Vila Galé in Portugal and Brazil, ensuring safely standardizing the salary processing. With the FI solution, the registration of operations from Brazil and Portugal, converge into a single global basis, which is certainly an asset. It is possible to check and access in an integrated and efficient way to the financial information of the Group, a decisive factor for a more efficient management.

## Key benefits

- Centralized processing, process efficiency and quality of information
- Income and resource efficiency and unified global assistance
- Single and centralized database with the inherent efficiency of access to information, highlighted by customer
- Reduced user intervention in the process of accounting and registration
